Scheme for the pumping of water to the lawns in the Lalbagh Park - Blue

File No. 30 of 1923 of 1935. | General and Revenue Secretariat

Supply of unfiltered water to the lawns at Lalbagh Park and also forwarding an estimate for Rs 2500 for additional requirements and for recurring charges required for the future upkeep of the pipe lines and requesting Sanction of G.O. for the Scheme of pumping water at a cost of Rs 15000.

Subd 5) The Superintendent Govt Gardens was asked to submit proposals for the pumping of water by abolishing the existing water carts. He has submitted plan and estimates for Rs 2500 each from the Executive Engineer Water Supply Division Bangalore for the supply of unfiltered water from two wells by means of a 4" pipe line as far as the lawns in front of the Public Offices. In addition to this the Superintendent has submitted another estimate for Rs 2500 an account of the probable cost of laying distributory lines and recurring charges for the future upkeep of the main and distributory pipe lines and also electric Motor and Pump. He has not however furnished any details about the present cost incurred on account of watering the plants in the Lalbagh Park and the extra cost involved in the present proposal over the

2000 non-recurg.
500 recurring

Serial No.

existing expenditure. Nor has he indicated the source from which the cost is to be met. Presumably he wants an extra grant to the extent required

6) Subd for order [The Supt. has not furnished details of the present cost incurred]

8/11/36

7) What is the existing arrangement for watering the lawns and how much is the expenditure? Supt may be called for.

LAL-BAGH, BANGALORE.

Dated 6 Jan 1936.

FROM

M. K. SITARAM CHETTY, ESQ., L.Ag.,
Offg. *Superintendent, Government Gardens in Mysore,*
Bangalore.

To

A.V.Ramanathan, Esq., B.A.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Subject:-
Scheme for supplying unfiltered water to the - Cubbon Park Lawns.
-:0:-

Sir,

With reference to your letter No. E 1427/G.G. 30-35-2 dated 22-11-1935 requesting me to submit proposals in the matter of abolishing the water carts in Cubbon Park, Bangalore, and - making other arrangements for pumping water and providing hydrants and hose, I have the honor to submit herewith a copy of letter - No. 1190 dated 18th instant together with its enclosures in original, an estimate amounting to Rs 12,500/- , a report and a plan received from the Executive Engineer, Water Supply Division, Bangalore, re: the scheme for supplying unfiltered water to the lawns at Cubbon park, for information. provision has been made in the estimate for laying a 4" C.I. main from the well marked 'A' in the plan as far as the lawns in front of the public Offices and a 3" C.I. pipe line from the well 'B' also marked in the plan to join the main line at a distance of about 1000'.

2. As regards the distributory lines and the recurring charges required for its future upkeep no mention has been made therein. I am therefore submitting herewith an estimate for Rs 2500/- for these additional items viz, distributory lines of 1½" Galvanized Iron pipes as marked in the plan, Establishment and contingencies, and the cost of the scheme now works up to Rs 15,000/-.

I request that Government will be good enough to sanction the scheme as also the amount required for the purpose at an early date.

I have the honor to be

sir

Your most obedient servant,

Offg Superintendent

3.7.36

Copy of the letter No.1190 dated 18-12-1935 from the Executive - Engineer, Water Supply Division, Bangalore, to the Superintendent, Government Gardens, Bangalore :-

Sir,

Scheme for supplying unfiltered water to the Cubbon park - Lawns.

With reference to your D.O.No.2349 dated 3rd December 1935 and subsequent reminder No.2334 dated 14-12-1935, I have the honor to forward herewith, an estimate amounting to Rs 12500/- for your kind disposal.

This estimate makes due provision for laying a 4" C.I. main from the proposed well 'A' marked in the accompanying plan. A 3" C.I. pipe line will be run from the well 'B' to connect the above 4" main at a distance of about 1000'. Water from these two wells will be pumped by 4 H.P. pumps proposed to be installed at these wells, which are capable of delivering 2000 to 2400 gals per hour. Since the water to be pumped is unfiltered a 4" line is necessary.

In this estimate provision is also made to improve the size of the old 1½" pipe line from the Old Maternity Hospital feeding the canna avenue, by replacing them with 2½" C.I.pipes. This will cost Rs 2100/-.

I have the honor to be
Sir
Your most obedient servant,

Sd/-

Executive Engineer,
Water Supply Division.

Sir,

Adverting to your letter No. E 1910 G.G. 30-35-2 of even date enquiring what the existing arrangement is for watering the lawns - in the Cubbon Park, Bangalore and how much the expenditure amounts to I have the honour to state that there are eight carts in Cubbon park of which six carts are used for watering Pot plants, flower beds and young plants on the lawns and shrubberies and two for carting rubbish mowing and rolling lawns and general garden works. The amount that is being spent per mensem on six water carts is Rs. 144/- and Rs. 48/- per mensem on two carts for doing general works.

The extensive lawns are not being watered during Summer as it is impossible to do so by means of water carts.

I have the honor to be
Sir
Your most obedient servant,

Subject:-

Scheme for supplying unfiltered water to - Cubbon Park Lawns.

-:0:-

D 1923 B 18/2

Sir,

With reference to your letter No. 2155/GG 30-35-4 dated 8th instant stating that the estimated amount of Rs. 15,000/- for the scheme for pumping water to the lawns in Cubbon Park, Bangalore has been ordered to be included in the next year's Budget, I have the honour to state that as the plants, lawns etc in the Cubbon Park are suffering during the present hot season for want of water as the ponds have - dried up, it is therefore necessary to lift water from the wells - by means of picotahs which involves much labour. Even then, the result is not commensurate with the expenses as sufficient water cannot be - lifted up. The use of water carts also has been found to damage the roads and lawns and spoil the beauty of the park. I am therefore, - desired to request you that the Executive Engineer, Water Supply Divisi Bangalore, ~~may~~ be addressed to take up the work now and arrange to - complete it early, payment being made from the special grants which is ordered to be provided in the next year's Budget.

I have the honor to be
Sir
Your most obedient servant,

Offg Superintendent

Bangalore.

Subject:- WATER SUPPLY AT CUBBON PARK.

Sir,

With reference to your letter No. D 6677/G.G.30-35-6 dated 6th May 1936 and your subsequent reminder thereto No. D 1770 dated 5th September 1936 calling for a report on the capacity of two wells in Cubbon Park, I have the honor to state that on testing the capacity of the well near the road in front of the Statue it is found to be 450 gallons per hour. Working at this rate for about 8 hours a day there will be 3600 gallons from one well. Regarding the yield of the other well it is far superior and the capacity is more favourable than the tested well. It has good spring and there is no fear for the yield to go down during summer. If these two wells are worked out simultaneously, we can easily get 7200 gallons per day which is sufficient for garden purposes for the present. In these circumstances the scheme may kindly be sanctioned at an early date, so that the work of laying out pipes etc may be taken up and completed this year.

I have the honor to be

Sir

Your most obedient servant,

Superintendent
Government Gardens.

Correspondence ending with letter No 983 dated 14th Novemb-1936 from the Superintendent Government Gardens requesting sanction to a scheme of water supply through pipes for the ~~xxxxxx~~ lawns and flower-beds in Cubbon Park in lieu of the existing system of supply by means of water carts.

****

ORDER No. D. 3622-5/GG.30-35-8

Dated Bangalore the 30th November 1936.

The scheme submitted by the Superintendent provides for the installation of an electric pump in each of the two wells situated in Cubbon Park and the pumping of water therefrom through a distributory system to the cisterns built near the various lawns and flower beds. In this connection the Superintendent has forwarded three estimates involving a capital expenditure of Rs. 14,500/- as noted in the margin.

1) Rs. 10,400/- for installing the pumps and laying the drains.	
2) Rs. 2,100/-for replacing the old pipe line from the old Maternity Hospital to the Canna beds by a new C.I.Pipe line.	
3) Rs. 2,000/- for laying the distributory system.	

The annual maintenance charges are estimated at Rs. 500/- as detailed in the margin.

1 Pump driver at Rs. 30/- p.m.	Rs.360/-p.m.	
Contingencies	Rs.140/-p.a.	
Total.	Rs.500/-	

Government are pleased to sanction the scheme of water supply described above at a cost of Rs. 14,500/- non-recurring and Rs. 500/- per annum recurring, the expenditure on this account during the current year being met from the provision of Rs. 15,000/- made in the budget. They are also pleased to accord sanction to the three estimates aggregating Rs.14,500/- referred to above.

The

The Comptroller is requested to make necessary provision for recurring expenditure from next year onwards in the budget of the Gardens Department.

The Chief Engineer is requested to arrange for the work being taken up immediately and completed as soon as possible so that the new system of water supply may be put into service before the next Summer season.

From the date of the new scheme or water supply begins to function the services of the six water carts on which Rs.144/- per mensem is being incurred at present should be dispensed with.

For Chief Secretary to Govt.
